## BERLIN REPORTS EVACUATION OF VYAZMA

## Bloody Battle For Kharkov Reaches New Critical Phase

## BULLETIN

London, March 12.—(AP)—The Berlin radio broadcast today a dispatch credited to the "international information bureau" asserting that the Germans had reoccupied Kharkov.

London, March 12.—(AP)—The German high command, in a communique broadcast by the Berlin radio recorded by the Associated Press, announced today the evacuation of Vyazma, which thus became the last strategic Rzhev-Velikie Luki-Vyazma triangle west of Moscow to fall to the Red army.

It said the withdrawal was executed after military installations were destroyed.

Offsetting this announcement of retreat, the war bulletin claimed further gains for the German counter-offensive to the south in the new battle for Kharkov and it said fighting was proceeding in the streets of that city.

Other German broadcasts on the evacuation of Vyazma, 130 miles west of Moscow, said the withdrawal was made before daylight today.

After having removed their material and leveling the airfield and motor highway DNB said, "German planes let loose hundreds of incendiary and explosive bombs upon the city."

## By EDDY GILMORE

Moscow, March 12.—(P)—Observers in Moscow had reason to believe today that the hard-hitting Red army of the central front had captured Vyazma, a railway hub 130 miles west of Moscow and one of the toughest German strongholds of the Smolensk salient, although there was no official confirmation of the report.

(A DNB broadcast from Berlin recorded by the Associated Press announced the German army had evacuated Vyazma after demolishing military installations.)

Vyazma, last of the famous corners of the Vyazma-Velikie Luki-Rzhev triangle, was the strongest outpost for the great German base. Smolensk, 230 miles west of the capital, and its fall would mean that the fast-driving Soviet offensive was advancing upon Smolensk from the east as well as the north-east.

Although dispatches from that front said the Russians were bleeding the enemy white as he plunged for the prize and had plugged some gaps in the Soviet lines, official communiques admitted that the defending forces were outnumbered by German reserves thrown into the battle which now had veered to the west of the city.

The Germans, a communique said, were "trying at all costs to break through to the city."

On the central front, numerous new victories were reported in the last 12 hours, including the capture of several towns and villages southwest of Gzhatsk on the road to Vyazma where the Red army already had pulled up to within 15 miles of Vyazma.

West and south of Bely the Red army was developing its successes, capturing 16 towns and villages. Rushing along the road to Smolensk these forces were blocking off and by-passing enemy garrisons. Izvestia said small groups of the Russian army were rushing ahead, breaking into settlements and holding them in the path of the enemy retreat until the main Red army forces approached.

A Pravda dispatch said latest Soviet successes in the northwest were along the shore of Lake Ilmen where the Russians smashed into the strong enemy positions in villages along the banks of rivers emptying into the lake.

The Germans blew up the ice of the rivers to form a jagged wall to hamper the Russian advance. Pravda said, but the Russians skirted the defenses and attacked from the rear by crossing the lake.

On the Kharkov front, Red Star said, the Germans were trying desperately to force an unidentified river with tanks, but were being repulsed by Soviet artillery. In the Kuban area of the Caucasus, the Russians were gradually clearing settlements of enemy forces, fighting their way through heavy mud toward the Black Sea.

## R. A. F. Pays Eighth Night Visit of Month to Germany

London, March 12.—(P)—The RAF paid its eighth night visit of March to Germany last night, pounding the important industrial and communications center of Stuttgart in southwest Germany in a strong attack from which 11 bombers did not return, it was announced officially today.

A strong formation of Allied planes was heard flying high across the English Channel toward France today and vapor trails looped about the sky between Calais and Boulogne, as if dogfights were in progress.

The air ministry, in a terse communique, described the Stuttgart raid as a heavy one, which usually means participation by several hundred bombers.

The loss of 11 bombers on the mission indicated that a sizeable force took part in the assault. A large part of Stuttgart's population of a half-million is employed in precision engineering which is vital to Germany's war effort in the air and on the ground, an official statement said.

Only a few hours after the British bombers streamed back across the English Channel, German raiders in a sunrise attack scored over London's suburbs, dropping bombs in at least one area and machine-gunning trains and other targets.

Five of the German planes were reported shot down.

The German high command communique broadcast from Berlin and recorded by the Associated Press said the people of Stuttgart suffered casualties from the RAF explosive and incendiary bombs.

"Great damage was caused in residential quarters and to public buildings and to several hospitals," it said.

The German communique credited the German communique credit.

Illness Is Only Excuse For Frenchmen in Labor Draft

Bern, March 12.—(P)—Only paralysis or a severe case of tuberculosis can save a French youth from Germany's program of mobilizing French workmen for the Nazi war industries, under which France literally is being bled white of manpower, dispatches from France said today.

Medical examinations are being held throughout France in an effort to fill the German demands for workers, but the young men selected "feel with reason that they are simply being railroaded to Germany," a dispatch from Marseille to the Tribune de Geneve said.

The Neue Zuercher Zeitung pointed out that, aside from the loss of more than 1,000,000 war prisoners in German camps, French economy has suffered considerable losses because of the exchange of prisoners for workers.

In addition to 150,000 workers who emigrated before June 1942, another 350,000 left between June and the end of the year, including 150,000 skilled workers, it was reported. A new contingent of 250,000 demanded must include 150,000 skilled workmen. Thus a total of 750,000 workers will have been removed from France, the dispatches said.

## DATE SET FOR RATIONING MEAT, BUTTER AND CHEESE

## GUFFEY IRKED BY DECISION ON GAS BAN

## Maintains Production Figures Warrants Change Requested For This Area

## DAVIES IS CRITICIZED

Washington, March 12.—(P)—Petroleum Administrator Ickes' ruling against lifting the pleasure driving ban and increasing gasoline allotments in 25 western Pennsylvania counties drew criticism today from Senator Guffey.

Ickes declared in a reply late yesterday to a plea made some time ago by business leaders, congressmen and oil operators that the district be separated from the 17 eastern states in the rationing plan.

"Thorough examination of all of the facts regarding the local western Pennsylvania situation, and careful study of the part that area plays in the entire wartime transportation and distribution of gasoline supplies to the east coast, has convinced me that there is no justification for treating that area on a different basis from eastern Pennsylvania or the other 16 east coast states and the District of Columbia."

Guffey maintained gasoline and production figures for the 25 counties "warranted in every respect the change which has been requested" and declared in a statement that Ickes "mistakenly" had listened to and been guided by Deputy Petroleum Administrator Ralph K. Davies.

The senator suggested that (Turn to Page Seven)

## Skip - A - Year Plan Opposed By Roosevelt

Washington, March 12.—(P)—President Roosevelt said today that the net tax return to the government this year would be less under the so-called Ruml skip-a-year plan than without it.

The chief executive indicated to a press conference his opposition to the Ruml idea of abating tax obligation to get on a pay-as-you-go basis.

The fact is, he said, and figures prove it, that persons, especially in the higher brackets, would save a great deal of money in taxes through the Ruml system. That, he said, seems to be pretty well established.

Now, in England, Mr. Roosevelt remarked, the more money people have, the more they have to contribute to the government. He said he thought he did not need to bring out more than that simple fact.

"But how would it work?" a reporter inquired.

It does work, the chief executive replied, and he said he had treasury figures to prove it.

## ONE DEAD IN HEADON FREIGHT COLLISION

Monessen, March 12.—(P)—Two Pittsburgh and West Virginia railway freight trains collided head-on at Banning, five miles south of here, early today, killing the head brakeman on one of the trains.

The victim, Steven Malinky, 31, of Avella, had been employed by the railroad only about a month.

Railroad officials said the cause of the collision was as yet undetermined.

## Japs Foiled In Oro Bay Raid

Allied Headquarters in Australia, Mar. 12.—(P)—Fourteen Japanese planes, two bombers and 12 fighters, were shot out of action yesterday in an attempt to raid Oro Bay, on the east coast of New Guinea, the Allied command announced today.

The Japanese, again mustering a show of air power in the southwest Pacific, sent over 12 bombers escorted by 16 fighters to attack Oro Bay, where three days ago they sank a small merchant ship in a raid.

A headquarters communique said Allied losses were light.

The Japanese also sent two bombers over the Allied base at Wau, south of Salamaua, last night but there was neither damage nor casualties, it was declared.

General Douglas MacArthur's fliers, in turn, bombed Japanese airdromes at Rabaul, New Britain, and at Finschhafen, New Guinea, and attacked planes bombed and strafed enemy positions in the Mubo sector of New Guinea, it was announced.

## Few Taxpayers Are Paying Full Amount

Pittsburgh, March 12.—(P)—Collector of Internal Revenue Stanley Granger reported today that only 18 per cent of western Pennsylvania income tax returns filed since March 1 were accompanied by remittances for the full payment. Last year nearly 70 per cent remitted the entire tax when they filed returns.

Revenue officials said the possibility of a pay-as-you-go plan probably prompted many people to pay no more than the first installment.

## Shortages In State - Owned Institutions

## Appalling Hardships Caused by Lack of Butter And Meats

## PHILADELPHIA P L E A

Pittsburgh, March 12.—(P)—Timely action by the food distribution committee is helping to avoid critical food shortages in the war-busy Pittsburgh district. William M. Walsh, western Pennsylvania supervisor of the Food Distribution Administration of the Federal Department of Agriculture, said today.

Potential shortages of sugar and potatoes were headed off this week by the committee, composed of private food distributors operating under federal supervision, Walsh disclosed.

He added that "appalling hardships" have been caused by shortages of butter and of meat at new war plant cafeterias and state and county institutions.

Mayview State Hospital's butter supply was cut from 10,000 pounds a month to 720 pounds in January and 1,300 pounds last month. Walsh said similar shortages exist at the Allegheny County Home at Woodville, Woodville State Hospital, the Pennsylvania Training School at Morgantown and the Torrance and Warren State Hospitals.

Philadelphia, March 12.—(P)—The supply of meat in Philadelphia wholesale and retail outlets was estimated at "10 to 25 per cent of normal" today as two branches of the U. S. Department of Agriculture appealed to Secretary Wickard to act immediately to get in new shipments.

## FOURTH TERM TALK IS EVADED BY PRESIDENT

Washington, March 12.—(P)—President Roosevelt told inquiring reporters today that he did not think he had any views to express on two White House conferences recently in which the question of a fourth term was mentioned.

Let's get on with the war, he suggested, when asked whether he had anything to say about recent meetings with officials of the Democratic national committee and with Representative Sabath (D-Ill.).

Sabath said he had told the president following his conference, that he thought Mr. Roosevelt ought to go after another term if the war continued.

## ALLOTMENTS ABOUT TWO POUNDS WEEK

## New Plan Brings Restrictions to Largest Part Of Typical American Diet

## SOME ARE LIBERALIZED

## BY IRVING PERLMETER

Washington, March 12.—(P)—Beef, pork, lamb and mutton will be rationed at an average of about two pounds a week for home consumption starting Monday, March 29. Rationing of butter, cheese, other edible fats and oils and canned fish will start at the same time.

Through this long-expected action, the government hopes to even up the civilian supplies, which have been curtailed by huge diversions to the armed forces and lend-lease. Local shortages are expected to disappear quickly.

Harold B. Rowe, in charge of food rationing, at the Office of Price Administration, said the allotments will be proportionately more generous than the limits put earlier this month on canned, frozen and dry fruits and vegetables.

"The meat ration," he said, "probably will be more than many low income families will be able to afford, although less than the average purchases of middle or high income families."

In the light of existing rationing programs, the new plan will bring restrictions to the largest part of the typical American diet.

Still unrationed on the basis of today's announcement, will be milk, cereals, fresh fruits and vegetables, bakery goods, and numerous specialties such as relishes.

From the customer viewpoint, the unrationed oasis of food will be the restaurant or other public eating place. These places will be able to collect coupons, but will not collect coupons.

Details of the program were announced partly last night by Secretary of Agriculture Claude R. Wickard and partly this morning by Price Administrator Prentiss M. Brown.

America's diet thus was tightened up within a few hours after two other food programs were liberalized. Coffee rations were restored to the one pound per person for six weeks, instead of the current five weeks. Coupon changes were reduced for raisins, prunes, and dried beans, peas and lentils. Un-

## Deferment Of Fathers Will Be Debated

Washington, March 12.—(P)—Legislation to defer fathers of children under 18 from military service appeared certain of its first congressional test in the senate today.

Despite protests that the controversial proposal, offered as an amendment to a bill deferring essential farm workers from bearing arms, would jeopardize enactment of that measure, Senator Wheeler (D-Mont.) announced determination to begin debate on the subject.

"Whether or not I withdraw the amendment later," he said, "will depend on how it goes on the floor."

Wheeler explained that opposition to the amendment has based on the contention that if it were adopted the entire measure would run the risk of house rejection or a presidential veto.

In addition to Wheeler's there are two other amendments to the deferment bill awaiting senate action.

## BOY ADMITS SHOOTING DAD DURING QUARREL

Doylestown, March 12.—(P)—John Hill, 42-year-old war plant guard, was shot and seriously wounded at his home early today.

Police Chief Felix R. Gowan quoted a 13-year-old son as saying he fired a .22-caliber bullet into his father's abdomen because he was beating the boy's mother.

"I fired the shot to protect my mother, that's all," the boy was quoted. "I thought he was going to kill her."

Gowan said the youth, a ninth grade student at the Doylestown public school, would be held without formal charge pending outcome of Hill's injury.

## 400 Workers to Participate In Red Cross War Fund Drive Scheduled to Start Tuesday

More than 400 volunteer workers will open Warren county's campaign for \$32,000 to the National War Fund of the American Red Cross on Tuesday morning, March 16th. The campaign will continue until March 25th.

Campaign headquarters stated this morning that the only pre-campaign meeting to be attended by workers will be held Monday evening, March 15th, at 7:30 o'clock, in the Young Woman's Christian Association activities building. A member of the executive committee was emphatic in stating that all residential and business district workers must be present Monday night. County workers who can be present are likewise invited. But the invitation is a "must" for all others.

## Committees Scrutinizing State Budget

## Three Weeks Will Be Required to Check Estimates Says Chapman

## MANY HEADS QUIZZED

Harrisburg, March 12.—(P)—The senate and house appropriations committees expect that three weeks will be required to check through the commonwealth's \$472,000,000 budget before the various appropriations may be reported to the general assembly for action.

"We're going right along," Senator Leroy E. Chapman, (R-Warrenton) chairman of the senate group, told reporters. "We're making a very close check to see if we can make reductions and each department is getting a close scrutiny."

Senator Chapman, and Rep. Norman Wood (R-Lancaster) have presided at numerous joint meetings of the appropriations committees since Governor Martin submitted the commonwealth's budget for the next two years, beginning June 1. A dozen department heads have been called in to justify their budget items and the committees plan to go down the line through all departments.

Meanwhile, Rep. Walter E. Rose of Cambria, Republican whip and co-sponsor of a bill to permit third class city voters to decide on a city manager form of government, asserted organized opposition has denied cities the right to choose their own form of government.

Other capital developments concerned the food front. Col. E. F. Evans, acting state selective service director, called (Turn to Page Seven)

## ENEMY POSITIONS IN ALEUTIANS BOMBED

## Fund Sought For Securing Farm Labor

Washington, March 12.—(P)—American bombers and fighters blasted Japanese gun positions and buildings on Kiska island in the Aleutians, the navy announced today, in a violent, low level attack against the Japanese outpost last Wednesday.

The Kiska raid was one of the heaviest delivered by the Aleutians air command in several weeks, although the Japanese base has been repeatedly pounded whenever weather permitted. It has been the target of five reported raids so far this month, counting the two actions disclosed in today's communique. Others may have been conducted yesterday.

## "Free Polish" Group Active

## BY WADE WERNER

Washington, March 12.—(P)—Activities of a "Free Poland" group in Moscow aroused anxiety in Polish circles and diplomatic concern in other quarters today for fear competing governments-in-exile might spring up under opposing sponsorship within the United Nations.

Underlining Vice President Wallace's appeal for a satisfactory understanding between Russia and the western democracies was the expressed fear of officials that both Communist and Democratic "Free" groups might be variously recognized by the Soviets and the Democracies as the official governments-in-exile for nations now dominated by the Axis.

A formal statement issued yesterday by Polish Ambassador Jan Ciechanowski referred specifically to the Moscow newspaper "Free Poland," which recently repudiated Polish claims to eastern areas taken over by Russia in 1939 and denounced the "imperialist tendencies" of Polish circles in Britain and the United States.

By DOUGLAS B. CORNELL  
Washington, March 12.—(P)—President Roosevelt said today that it is squarely up to congress whether the nation would have a great post-war delay in providing jobs for men leaving the armed services and war industries.

The chief executive, talking at his press conference, did not go into any of the broad recommendations for post-war programs drawn up by the National Resources Planning Board and submitted to congress Wednesday.

But he did say, in response to questions, that the burden and responsibility for continued planning rests entirely in congress—nowhere else.

## ALLIES BOMB AXIS LINES IN MARETH AREA

## British and American Ground Forces Beat Off Three Attacks by Gen. Von Arnim

## ROMMEL LASHES OUT

## BY WES GALLAGHER

Allied Headquarters in North Africa, March 12.—(P)—Allied bombers and fighters began softening Field Marshal Erwin Rommel's troop positions and supply lines in the Mareth area yesterday as British and American ground forces beat off three attacks by Col. Gen. Jürgen von Arnim in North Tunisia, it was announced today.

Axis infantry and artillery struck once, then again and again at British defenses near Tamara, seven miles west of Sedjenane in the north, but each time the enemy was driven back with considerable losses, field accounts said.

Military observers agreed that von Arnim's only object in pressing the attacks was to keep the First Army occupied.

Western desert air forces started the pounding of the Mareth Line with a raid by RAF Boston bombers while the series of Axis attacks in both southern and northern Tunisia came to a halt without any significant gain.

At the same time United States bombers and fighters struck again at Axis sea lanes and the Allies reported the destruction of 12 more Axis planes. Seven Allied aircraft were listed as missing.

There was no late report by noon today of Rommel's attack in the (Turn to Page Eleven)

## WALLACE ADDRESS IS PUBLISHED IN MOSCOW

Moscow, Mar. 12.—(P)—The Soviet press published today for the first time an account of the address made by Vice President Henry A. Wallace last Monday in which he expressed his fear that unless the western democracies and Russia come to a satisfactory understanding before the war ends.

The Russian people also were informed through the press of a statement by Lend-Lease Administrator Edward R. Stettinius, Jr., detailing the aid sent to Russia by the United States under the Lend-Lease agreement. The statement already had been broadcast by the Soviet radio.

## BROTHER OF EMPEROR UNDER HOUSE ARREST

London, March 12.—(P)—Prince Chichibu, brother of Emperor Hirohito of Japan, has been under house arrest in Japan for 15 months on charges of being "sympathetic to enemy powers," the Daily Express said today in a dispatch from Istanbul.

The Express said it was informed of the prince's imprisonment by an unidentified person who just had reached Istanbul from Tokyo.

## Hess Not Anxious to Return to Native Land

London, Mar. 12.—(P)—Soldier guards said they asked Rudolf Hess, former No. 2 deputy to Adolf Hitler, soon after he parachuted to earth in Scotland May 10, 1941, if he would like to return to Germany and Hess shouted:

"No, no, no, no!"

This detail of Hess' flight to Britain were told for the first time in "Roof Over Britain," the official story of Britain's anti-aircraft defenses, published today. Hess is now a prisoner of war.

## Executive Discusses Post-War Plans At Press Conference

By DOUGLAS B. CORNELL  
Washington, March 12.—(P)—President Roosevelt said today that it is squarely up to congress whether the nation would have a great post-war delay in providing jobs for men leaving the armed services and war industries.

The chief executive, talking at his press conference, did not go into any of the broad recommendations for post-war programs drawn up by the National Resources Planning Board and submitted to congress Wednesday.

But he did say, in response to questions, that the burden and responsibility for continued planning rests entirely in congress—nowhere else.

The house has refused to vote funds for continuing the work of the planning board, but the senate has taken no final action on the issue.

Mr. Roosevelt said that the board has listed about \$7,000,000,000 worth of public works to take up unemployment which would affect a great many people upon demobilization and closing of war plants.

House Republican leaders meanwhile renewed their campaign for creation of a joint committee on post-war development following publication of the National Resources Planning Board's report.

## Mate on Warpath

Mrs. Edward T. Griffith, shown in costume she wore for a night club party, isn't on the warpath, but her husband is. He's asking a New York court to order her to appear with the family ration book and their 6-year-old daughter. He says she stalked away with both in January.

## Boosters To Stage Spring Fund Drive

Ralph E. Sires, chairman for the proposed School Music Boosters' Club tag day on May 8, presented at the March meeting last evening a letter from Burgess R. W. Steber, granting permission for the event.

The meeting, held in Beady school auditorium, was in charge of President Harry Thurn, with routine reports and announcements. Harry A. Summers announced the a cappella choir concert to be given on March 19 under the direction of Carroll A. Fowler.

Mr. Summers and Mrs. N. K. Wendelboe then presented their "amateur night" program. Orrie Beebe pleased with a number of solovox selections and Mrs. Nestor Bartholomew sang two numbers with Miss Betty Mason as accompanist.

The final attraction was the appearance of a chamber quartet, the Four Klinkers, with Mr. Summers as Chief Klunk. In this group were Madame Alice Ledig, Madame Charlotte Sires and Maestro William Glassman. Prolonged applause greeted their initial offering, "Over the Waves," after which they executed a Mozart Minuet, singing in the 17th century, rendered "Homelless" and proved undaunted by the difficulties of the Anonius from Haydn's Surprise Symphony.

To conclude the evening, Mrs. C. C. Halings and her committee served refreshments in the school cafeteria.

## Farmers To Hear of Work On Gardening

O. C. Tritt, county extension agent, has sent out a letter to the farmers of the county giving places and dates for a series of meetings for the discussion of vegetable gardens. The letter follows:

"One of the biggest contributions a farmer of Warren county can make to the war effort is to produce all the food possible for his own family. This means fruits, vegetables, eggs, meat, etc. "This letter concerns the vegetable garden production. Now as never before we should feel obligated not to waste seed, fertilizer, and labor. The best way to save seed, fertilizer, and labor is to make them produce the maximum crop with the least work. "These are the things W. B. Nissley from State College will discuss at the following series of meetings:

Monday, March 15, 8 p. m.—Fire house at Tidoute.  
Tuesday, March 16, 1:30 p. m.—Youngsville high school; 8 p. m.—Garland school.

## Information On Temblor Is Being Sought

Postmaster James K. Bell has received from the Coast and Geodetic Survey a questionnaire requesting information relative to the earthquake which jarred up this section last Monday. The queries cover all phases of the tremble, how long the tremors lasted; whether they were felt indoors or outdoors; types of buildings affected; direction of motion felt outdoors; type of ground underneath locality (rock, soil, loose, compact, marshy, filled-in, etc.); whether the motion was slow or rapid, etc., etc.

The questionnaire also wants exact information on damage, such as whether dishes, windows, or furniture were broken, and if there was twisting fall of chimneys, columns, etc. . . . if even wants to know if trees and bushes were shaken, slightly, moderately or strongly . . . the study is for joint use of local institutions engaged in seismological research and the Geodetic Survey, with the purpose of promoting public safety through a better understanding of earthquakes.

Postmaster Bell states that he did not feel the quake and hence was not prepared to answer the questions so simply sent in a clipping from the Times-Mirror relative to the affair.

## 'LITTLE' JOBS BEFORE THE BIG PUSH

Before the United Nations can start their big push against the axis there must be cleaned up numerous "little" jobs which actually involve major campaigns. #### RED CROSS DRIVE

Some time between now and the end of 1943 an Army of American soldiers will invade the continent of Europe in what we expect will be the beginning of the end.

Starting from North Africa or England or the United States, or quite possibly from all three, hundreds of thousands of our men will be ferried across waters in which the greatest submarine fleet of all time, now being readied, will lurk. From the air they will be bombed by the Luftwaffe—perhaps by those Nazi aircraft which have been so mysteriously missing of late.

After they land—the majority that does land—they will seek to whip a mighty German Army which has had years in which to prepare powerful fortifications against the very invasion that now is in the making.

We shall win, at a cost that is incomprehensible to us now. Tens or scores of thousands of men will be killed outright. Other tens or scores of thousands will be mortally wounded, and will have to be cared for so long as they survive in misery. Even more will be wounded, but not fatally, and will need loving care. Thousands, perhaps, will be taken prisoners, even in an ultimately victorious campaign.

Who is going to look after these men? The Army—and the Red Cross.

Who is going to help them send reassuring word to the folks at home? Who is going to see to the welfare of prisoners? Who will distribute cigarettes and candy in the very fighting lines; search records to see whether Johnny is dead, wounded, missing, or merely too busy and tired to write; maintain clubs in rest areas; produce surgical dressings; gather blood for transfusions?

#### The Red Cross

March is Red Cross month. Faced with the greatest challenge to merciful duty in its long history, the Red Cross this month is asking the American people for \$125,000,000.

The Red Cross always has been deserving of more than its most generous friend has done for it. This year, this very month, it deserves even more than before to get a really big contribution from YOU.

You won't have done too much if you give until it actually, physically hurts.

#### WAR TIME

Assistant Secretaries Patterson of War and Forrestal of Navy say that nation-wide war time, advancing the clock an hour, has saved more than 1,500,000,000 kilowatt hours of electricity for industrial use. If this is true, then surely nobody would want to change back now.

Is it true? Never yet has anybody given a logical explanation how electricity is saved by turning on the current an hour earlier so as to turn it off an hour earlier. In summer, with early sunrise, unquestionably there is a big saving. How is that economy carried into winter's short days?

With the rationing of tires and fuel, Warren young folks will be gassing on the steps this summer instead of stepping on the gas.

The Russian people doubtless now are giving Ambassador Stanley good measure—a million thanks for thousands of tanks.

This last hitch in the race to fill out the income tax form is a constant reminder procrastination is a fellow we won't do business with—again!

## LENTEN SERMONETTE

Written by Dr. H. H. Barr, Retired

"And when they had sung an hymn, they went out into the Mount of Olives."—Mark 14:26.

This text comes to us with great encouragement. Jesus had passed through the disappointment of seeing one of His immediate disciples rise from the common table about which they sat to go out and bargain with His enemies to bring Him to trial and finally death at Calvary.

In the face of this Jesus could lead the other disciples in a song. He went out to face the agony He was to endure in the garden, but He went with a song upon His lips. He knew He would face the soldiers and the mob in a few hours at the garden gate, but He kept a singing heart. He knew that mockery, condemnation and death awaited Him, but He went about the work of establishing the great memorial feast which has been the common bond which has bound the Christian Church in fellowship through the centuries, and He did it in the atmosphere of sacred song.

If Jesus could sing under these circumstances, surely we can keep the singing heart in the troubled days. It is the man with the Christ-like agencies today who will set other hearts to singing. Getthemenes and Calvaries are near by for multiplied numbers of American men and women. Let the singing heart of Jesus be your encouragement today.

## Counting On Your Support

## 200 State Hospital Employees Will Donate to Blood Bank

Nearly 200 donors from Warren State Hospital employees have been signed for the Red Cross Blood Bank, through the efforts of Dr. Leonard Rosenzweig, assistant superintendent of that institution. With the full approval of Dr. Robert H. Israel and the help of a number of volunteer workers it will now be possible for the mobile unit of the Buffalo Red Cross to work one full day at the North Warren institution.

The dates set for the next visit of the mobile unit are March 23rd and 24th. On the 23rd they will accept donations at the City Building as in the past. M. G. Keller, chairman of the local Blood Bank

Committee, stated that those accepted for donations on the 23rd will be those volunteers who have not made donations before. And with operations confined to State Hospital employees on the 24th, no new volunteers will be needed in Warren until the return visit of the mobile unit in April.

Much credit is due authorities at the State Hospital for lining up enough of their employees to provide a full day's work for the unit. Considering that many are beyond the 60 year age limit and over half are in the armed services this record is indeed a good one.

Dr. Rosenzweig stated that cooperation on the part of the em-

ployees was gratifying. Each employee was given a printed reminder telling him of this important phase of Red Cross work, and the results being accomplished in aiding wounded men in the armed forces. Many have friends or relatives in military service and all feel that they can show their contribution to the war effort in no better or more direct way.

Mrs. Margaret Donaldson, who helped enroll volunteers, stated at the hospital this morning that many of the 60 persons turned down as over the age limit were chagrined to learn their services could not be utilized. With such a fine spirit shown it is hoped that the State Hospital employees may be able to make more donations later this year.

### Fine Address Given By Dr. Davidson For "Pennsylvania Day"

A large attendance marked the observance of Pennsylvania Day by General Joseph Warren Chapter, Daughters of the American Revolution, at the YWCA on Thursday afternoon. Guest speaker was Dr. J. A. Davidson, First Baptist minister, whose topic was "Life on Pennsylvania's Western Frontiers."

From much personal delving into the records of old churches in extreme southwestern Pennsylvania, Dr. Davidson could vividly portray the importance of the church, which not only offered the expected spiritual guidance but actually preserved law and order on a frontier where courts and constables were unknown.

At the conclusion of his address, Mrs. Warren R. Carlin, program chairman, presented G. Walter Irwin in two vocal numbers and played his piano accompaniments. Tea was served by Mrs. R. L. Young and her committee at a table prettily decorated in pink and white and centered with pink azaleas and presided over by Mrs. Daisy Hanchett and Mrs. Fred C. Eaton.

Mrs. Leon Laskaris, regent, conducted the business session which preceded the program, when the chapter voted to subscribe \$20 to the Red Cross War Fund and send a gift of \$30 to the DAR school at Tamassee, S. C.

### Choir Is Preparing Its Annual Concert

Included will be solo selections by several of the choristers and the climax will be a patriotic number done by the choir to two-piano accompaniment.

## Girls Pennies Make Possible Many Gifts

A nice symbolism exists in the fact that the day upon which Warren County Girl Scouts make their contributions to the Juliette Low Fund is exactly 31 years from the day upon which Juliette Low gave Girl Scouting to the girls of the United States, according to Mrs. Karl Nichols, Juliette Low representative on the Warren County Girl Scout Council.

Mrs. Nichols, in making public the figures concerning the fund, says that the astonishing thing is that the only request for the fund is made to members of the organization and then for only a penny or more from each girl.

The pennies of American Girl Scouts have made possible all these gifts to the suffering children in war torn countries since Sept. 1, 1941: \$1500 to British children, \$1750 to Greek children; \$3000 to Russian children, \$7,013.99 to Chinese children, \$1000 to Swiss children, \$153.68 to Polish children, \$250 to children in Java, \$50 to Ya Fu Lee, a Chinese Girl Scout who, as a student, worked as a counselor at Camp Birdall Eddy for three summers, and several hundred dollars to Girl Scouts from other countries who are here in the United States for the duration.

Warren County Girl Scouts will give their pennies as part of the celebration to be held at Betty school from seven to nine this evening. An original review of Girl Scouting, moving pictures and refreshments are also on the program.

**Guffey Iked by De-  
cision on Gas Ban**

(From Page One)  
Davies should be replaced by  
"some more practical and less  
biased man."

In Pittsburgh, Frank L. Duggan,  
president of the Chamber of Com-  
merce and leader of the group  
which sought the gas rationing  
change, indicated he would ask  
Ickes to explain why a part of  
West Virginia was removed from  
the eastern area.  
Ickes, in support of his decision,  
issued a "summary of facts and  
conclusions" which showed, the  
report said, that to grant a four-  
gallon allowance for A, B and C  
coupons and remove the pleasure  
driving ban for the area would in-  
crease consumption in the coun-  
ties to about 1,200,000 gallons  
daily, or about 154,000 gallons  
more than the area's daily produc-  
tion.  
In a letter to Pennsylvania con-  
gressmen, Ickes wrote that about  
April 15 he would "look at the sit-  
uation again." He further said:  
"The rationing of gasoline  
stocks at intermediate points, such  
as Pittsburgh or the terminals of  
the products pipelines traversing  
the southeastern states, may give  
locally the impression that supply  
is of such magnitude that storage  
tanks are being filled to capacity,  
but such local accumulations have  
been the result of the temporary  
setting aside of gasoline while other  
essential products have been  
moved through to destination.  
"Until such time as fuel oil  
stocks are returned to their mini-  
mum safe levels and supplies for  
next winter are being accumulated,  
and until the current gasoline  
supply can be enlarged, relaxation  
of rationing of gasoline would  
make the oil shortage more acute  
in other areas."  
"Such locally increased con-  
sumption would make more diffi-  
cult the accumulation of strate-  
gic points of the basic oil stocks  
required for offshore military  
needs."

Russians already were within  
about 80 miles of Smolensk to  
the northeast, and their advance  
was made up of mobile units adept  
at cutting into the enemy at night  
and encircling his positions.  
To the south, however, the Rus-  
sians were engaged in beating off  
furious German attacks, supported  
by massive tank units, against  
Kharkov, the "Pittsburgh" of the  
Ukraine.  
The Nazis appeared to have  
thrown into gear an offensive on  
the scale of that which was hurled  
at Stalingrad last summer, and  
the situation seemed as grave as  
that which existed at Stalingrad  
when the heroic defense reached its  
climax.  
Although the Germans had a  
large superiority of numbers and  
were employing them on a narrow  
front, the Russians reported that  
their lines were strong and un-  
broken despite the terrific ham-  
mering they were receiving west  
and southwest of the city.

- Allotments About Two Pounds Week**  
(From Page One)  
sealed packages of dates and figs  
were made ration-free.  
The 2-pound meat ration esti-  
mate, made by Wickard, was a  
calculation of the amount of meat  
that will be available for civilians  
to buy for home consumption, if  
divided up equally without regard  
to types of cuts. Since meat killed  
by farmers for their own use will  
be unrationed and since customers  
will not have to give up coupons  
to eat in restaurants, Wickard said  
the total civilian meat supply will  
average 2 1/4 pounds a person per  
week. Last year's consumption was  
a little over 2 1/2 pounds.  
Meat rationing will apply to all  
products—fresh, cured, smoked or  
frozen—of cattle, calves, sheep,  
lambs and swine. Not rationed will  
be poultry, game, horsemeat, fresh  
or other fish not contained in sealed  
cans or bottles, and inedible  
fats, such as soap.  
Cheese rationing will cover most  
types except cottage, pot and simi-  
lar "soft or perishable cheeses."  
If divided evenly, the cheese sup-  
ply under rationing would pro-  
vide each person with about one-  
tenth of a pound a week, but this  
is expected to vary widely accord-  
ing to individual tastes.  
Similarly, the butter supply will  
average about 4 1/2 ounces a person  
per week, but anyone will be able  
to buy more or less as he desires  
within his total of 18 points per  
week for all of the items on the  
new ration list. Margarine, short-  
ening, salad oils and canned sal-  
mon or Tuna fish are other items  
in this group.

**Outdoor Seed Box Useful  
To Speed Victory Garden**

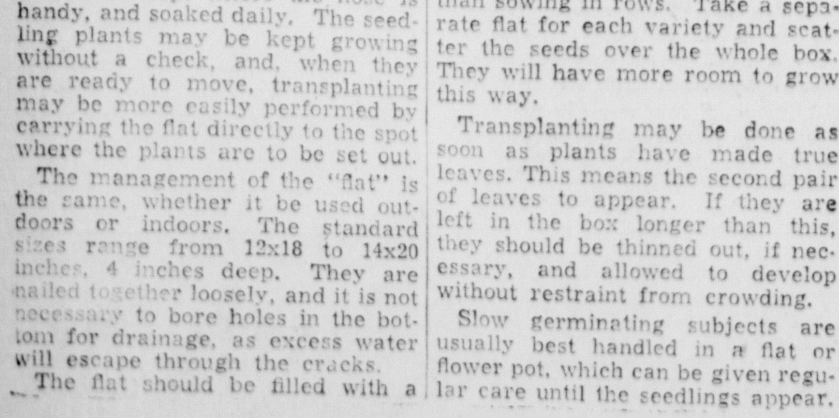

Marking the Drills.

Sowing the Seed.

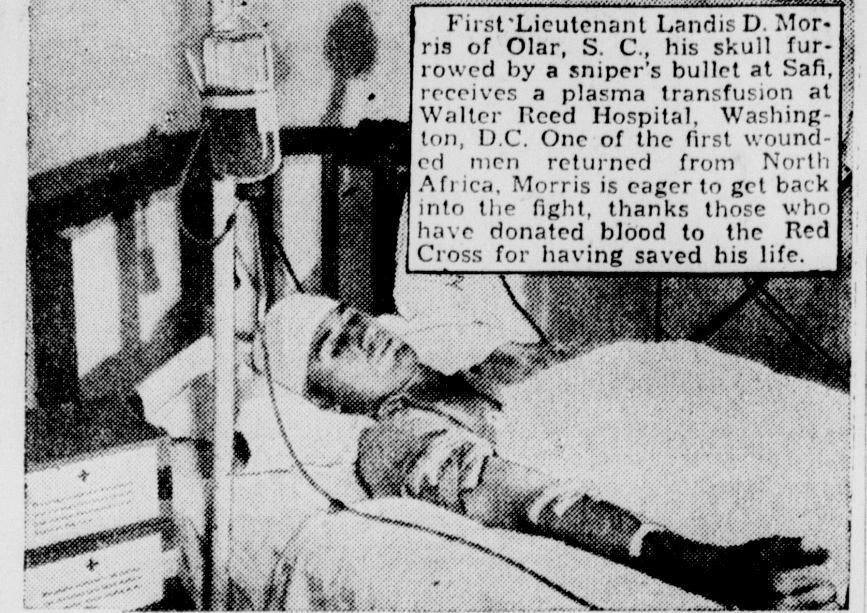

Firming the Soil.

Ready to Transplant.

Victory Gardeners will find the  
usefulness of a "flat" or seed box  
is not confined to the early spring,  
when seeds may be started in  
doors, or in the hotbed and cold-  
frame.  
Even after danger of frost is  
over, and seeds might be sown di-  
rectly in the ground, still will  
pay to use the seed-box for the very  
small seeds, like petunias; and for  
varieties of both flowers and vegeta-  
bles which require to be trans-  
planted.  
The seed-box is under closer ob-  
servation than even a seed-bed; it  
can be carried to a shady spot  
during an excessively warm spell.  
It can be kept where the hose is  
handy, and soaked daily. The seed-  
ling plants may be kept growing  
without a check, and when they  
are ready to move, transplanting  
may be more easily performed by  
carrying the flat directly to the spot  
where the plants are to be set out.  
The management of the "flat" is  
the same, whether it be used out-  
doors or indoors. The standard  
size range from 12x18 to 14x20  
inches, 4 inches deep. They are  
called together loosely, and it is not  
necessary to bore holes in the bot-  
tom for drainage, as excess water  
will escape through the cracks.  
The flat should be filled with a

**Red Cross Blood Plasma Rates  
Top Priority With Army Forces**

Washington, D. C. — A landing  
at Safi, white robed Arabs ignor-  
ing rifle fire to bum cigarettes, a  
bullet's sting and a doctor pump-  
ing life-saving plasma into his  
veins—these are vivid recollections  
of Lieutenant Landis D. Morris of  
Olar, South Carolina.

One of the first wounded men  
returned from North Africa to  
Walter Reed Hospital here, Morris  
can joke now as he waits for an  
agony gutter wound in his skull to  
heal.  
"I made the mistake of sticking  
my head up twice in the same  
place," he says with a grimace.  
"That's how the sniper got me."  
Then, more seriously:  
"That doctor was a whiz. Kept  
humming all the time he was  
taking the bones out. If it hadn't  
been for blood plasma, I guess I  
wouldn't be here today."

Morris isn't the first soldier  
whose life has been saved by  
plasma from blood donated  
through the Red Cross. The mar-  
tials began at Pearl Harbor and  
have been happening ever since.  
Returning recently from North  
Africa, Major General James C.  
Magee, surgeon general of the  
Army, told of case after case in  
which plasma has meant the dif-  
ference between life and death.  
"In one instance," he says,  
"four hundred men were badly  
burned aboard ship. Treatment  
was given promptly and all ex-  
cept six recovered. Blood plasma  
gets the credit to a very large  
degree."

In Alaska, a rescue party  
headed by Major Milo Fritz hiked  
on snowshoes to reach a pilot  
crashed on an isolated mountain  
range. They got there just in  
time for plasma transfusions to  
pull him out of shock caused by  
a broken leg and ten days' ex-  
posure.  
Out of the jungles of New  
Guinea comes a direct plea to  
America for more plasma. Ac-

First Lieutenant Landis D. Mor-  
ris of Olar, S. C., his skull fur-  
rowed by a sniper's bullet at Safi,  
receives a plasma transfusion at  
Walter Reed Hospital, Wash-  
ington, D.C. One of the first wound-  
ed men returned from North  
Africa, Morris is eager to get back  
into the fight, thanks those who  
have donated blood to the Red  
Cross for having saved his life.

According to Major Simon War-  
mover, formerly of St. Mary's  
Hospital in Grand Rapids, plasma  
gets A-1 priority right up to the  
battle lines.  
"We need it, all we can get,  
right now," he says.  
"I don't know who donated the  
blood that saved my life," says  
Morris. "But if the people in the  
United States only knew what it  
means to us out there on the bat-  
tlefield—well, I think we could  
count on them to give the four  
million pints the Army and Navy  
have asked the Red Cross to col-  
lect this year."

Unfortunately, not everyone can  
give blood to the Red Cross, but  
they can contribute to the 1943  
War Fund for \$125,000,000, part  
of which will be used to support  
this phase of the Red Cross pro-  
gram which often means the dif-  
ference between life and death to  
American fighting men.

# Two Games At "Y" Saturday Night Decide Titleholder

## Struthers-Wells Band To Play Between Tilts For Red Cross Benefit

The Saturday Night League will offer its two most crucial tilts of the year tomorrow night in the form of a Red Cross benefit night that will be one of the biggest sports attractions of the season. The Struthers-Wells band will be on hand to play in one of its few appearances this year and those who have seen and heard the band's organization are sure the double-attraction will turn into a banner night for the YMCA.

The Rock Cleaners and O'Connors will clash at 7:30 in the game that will mean life or death to the machine men from Sheffield.

In the event of a loss to the Blomquists tonight, the Rocks will not be able to finish in the running for the second half, but if the O'Connors drop to the Rocks, then it's in the bag for the Furmures, and the Irish are out to top the strong Cleaners Five.

The second game will match the Blomquists and Struthers-Wells at 8:30 with stakes as high as the first, because the Bloms also must climb the barrier on Saturday night to keep out of the path of

## FOUR FAMOUS BOXERS REFEREE ARMY BOUTS

Fort Dix, N. J., March 12—(P)—Soldiers here staged a big boxing show among themselves last night, and for referee they had four famous boxers.

They were Benny Leonard, Jimmie Braddock, Mickey Walker and Benny Bas.

Ray (Sugar) Robinson, now a soldier here, took part in a three-round exhibition bout.

And Tony Galento was introduced from the ring.

Meriden, Conn.—Freddie Cabral, 153, Cambridge, Mass., outpointed Larney Moore, 153, Valley Stream, N. Y. (8).

## Sports Roundup

**BY HUGH FULLERTON, JR.**

New York, Mar. 12—(P)—The secret finally comes out: When the National semi-pro baseball congress conducted its nation-wide registration of players last spring, the oldest registrant was none other than Connie Mack. . . . Wonder if the whole athletics' club will drop around at the nearest sporting goods store March 27 to sign up for this year. . . . Pro football coaches are breathing easier since they've learned that the newcomer at the Don Huston residence is another girl, not a junior pass-snatcher. . . . The Boston Olympics hockey team has a rule that players must give up their seats to service men in trains, which accounts for their making several Boston-New York trips standing up.

**Observation Post**

The news that Eleanor Bingham, serving her first season as basketball coach at Lykens, Pa., high school, turned out two championship teams, makes us wonder if the feminine invasion of the coaching profession will mean the end of one of the coaches' oldest prerogatives. . . . Just think of what those pre-game tears would do to the girls' makeup.

**One-Minute Sports Page**

Harry Hillman, Dartmouth track coach, claims there's no use arguing about the four-minute mile any more. He says Gunder Haegg could do 3:59.5 on that fast Dartmouth track. . . . The boom for the Browns as American League pennant contenders is collapsing, what with Walt Judnich gone to the army, Glenn McQuillen ready to go by April and Vern Stephens on the likely list. . . . Trainer Dutch Wilhelm, who is conditioning W. E. Boeing's derby candidates, Devil's Thumb and Slide Rule at Columbia, S. C., says he wouldn't swap Carolina's training soil and climate for any in the country. . . . After Bo McMillin's son, Mike, had been baptized, the Rev. Thomas Kilfoil told the Indiana coach: "He couldn't be yours. I didn't get a whimper out of him."

**Today's Guest Star**

Bill Montgomery, Jefferson City (Mo.) Capitol News: "The big league baseball scout, a cross between a pair of binoculars and a crystal ball, may be seen any time between now and the draft, removing its trusty Brogans and pouring out the results of a day's prowling around the sand lots."

## Blomquist Furnitures And Rock Cleaners Set For 7:30 Crucial Game

The stage is set for the battle between the Blomquist Furnitures and the Rock Cleaners of the "Y" league, and all eyes will be on the outcome which may decide the championship, when they meet at 7:30 tonight.

Playing the Bloms last week, the Rock Cleaners led in every minute of the game, not until the last 20 seconds did the Furnitures knot the count which necessitated an overtime period, and the Rocks dropped off to lose.

Each team is putting their full teams on the floor tonight with stars of the past five years, all well-known in basketball circles, from professionals to high school stars and it is definitely a "natural" with these two evenly matched aggregates.

Joe Waples will be on hand to referee and with the record crowd expected the fans are asked to arrive early enough to allow those associated to supply chairs for them.

## STRIKES TO SPARE

### AT PENN CENTER

The Keystone's turned on the heat to overcome the 3-G Oils for three points to take the leaders down a couple of notches and put the league into a tie-way affair. As Mihalko's 524, Siddle's 529 was too much to overcome for the leaders as Dr. J. Giunta's 211-552 and Urbanski's 523 led the leaders. Valone's with Pasquino's 227 game, also high for the evening and 550 and Vesico's 215-546 was plenty to take four points from the Crossets, as F. Riggs' 507 and Olmstead's 222 topped the losers.

Times Square and Oscars, Bradford-Penn and Olson-Bjers, each split even in their matches. White-shot's 220 and 541 led the Times Square and Raleigh's 221-551 topped the restaurant boys. L. Check's 524 led both teams in the Penn and Olson-Bjers.

### SPORT SHORTS

**Pittsburgh, March 12—(P)—**Vince DiMaggio, hard-hitting outfielder, and Xavier Rescigno, rookie pitcher, have returned signed 1943 contracts, the Pittsburgh Pirates announced today.

Vince, oldest of the famous DiMaggio brothers, has led the Bucs in home runs three straight seasons. Rescigno, purchased from Albany, N. Y., of the Eastern League under working agreement privileges, won 23 and lost six with the Class A club last season. He is a right-hander.

**Pittsburgh, March 12—(P)—**New Wilmington and Glassport high schools, winners in the semifinals of the WPLAL Class B basketball tournament, will play tomorrow night for the title.

The Lawrence county five, from a school with an enrollment of only 90 boys, eliminated Claysville, 57 to 21, last night at Pitt Stadium. Paced by sharp-shooting Ken Cathcart, who had 24 points for high scoring honors, New Wilmington took an early lead and breezed through every period by a wide margin.

Glassport had little trouble with Oakmont, winning 42 to 29. The winners scored 17 points to Oakmont's nine in the second period to establish a comfortable lead and held it through the remainder of the game. George Hays led the Glassport attack with five baskets and three fouls for 13 points.

**New York, March 12—(P)—**The Brooklyn Dodgers announced today they had received a telegram from Pitcher Chet Kohn saying he was about to be inducted into the

# Isolation Island

Chapter 8

ALTHOUGH it was the Morrisons' custom to have demitasse and brandy served in the patio when the nights were warm and clear, Landa had whispered urgently to Maria before the party left the dining room to serve tonight in the living room. She knew Don and his father would be in the rose garden and if their angry words came back to the papaya buyers and Jim it would mean only further embarrassment for them all.

The party had been in the living room sipping their coffee and chatting for what seemed to Landa an interminable age when she glanced up to see Don's figure in the doorway. He hesitated for an instant, the flickering candlelight showing the whiteness of his face, and then made his way across the room and sank into a chair. There was a sudden lull in the conversation as all eyes turned to him. He attempted a brief smile.

"I'm dreadfully sorry about all this, but the padre is old and nervous you know." His tone was thin and unconvincing.

McCullough came quickly to the rescue.

"I think I'm the one who should be making the apologies, old chap. I should have had better sense than to argue with the old gentleman when he isn't feeling himself."

LANDA found herself listening intently for the heavy step of O'Shanessey on the tile floor of the patio outside.

"He's coming back for his coffee," she said anxiously to Don.

"I think he'll be back later." Don's face flushed as he said the words. "His favorite horse, Shamrock, has been running a temperature and he's gone to the stables to see how he's getting along."

Landa tried hopefully to swing the conversation to something—to anything but papaya.

"Uncle Mike's quite a horse fancier, you know."

"Fine horses are a luxury I've always dreamed about," Jim Blair said helpfully. "I spent two years in the Cavalry when I was a kid but haven't had much chance to ride the last few years."

"Daddy loved horses, too," Landa said dreamily. "I can remember when I was a little girl he had a horse named Silver Glow, a pure white Arabian, and he and Uncle Mike used to race them on the beach every Sunday morning. It was such fun."

For an instant Don seemed to be his old carefree self again.

"And the natives bet their most valuable trinkets on the winner, remember?" he laughed. "Father taught them the art. He felt betting made the occasion more genuine."

McCullough moved uneasily in his chair and set his brandy glass on a table beside him. "Pardon me, Mr. O'Shanessey, for changing the subject," he said, "but to get back to the papaya proposition, it's rather urgent right now for Brown, here, and myself to get as many growers under contract as we can, and I was just wondering if we couldn't get this thing fixed up somehow in the morning. We would like to get on

to Santos Diego by noon tomorrow."

A COLD misery settled over Don's face, but his voice came sharp and brittle.

"You and Senor Brown are welcome here on our island as long as you wish to stay as our guests, but I think you might as well consider the subject of buying our papayas closed forever," he said.

Landa whirled on him, hurt and astonished.

"Don!" she cried. "But I thought you felt as I do! Why shouldn't we sell these gentlemen as much of our papaya as they care to buy?"

"It is my padre's wish," Don said with a tone of finality.

Angry indignation rose slowly in Landa. "Well, it isn't mine," she said sharply. "And I own half the island."

Jim Blair got to his feet.

"If I may be excused," he said pleasantly. "I think I'll turn in. This getting up with the sun makes the bed look very inviting about nine o'clock."

Brown and McCullough took the cue and rose from their chairs.

"I think that's an excellent suggestion, Blair," Brown said. "Mac here and I could do with a little extra sleep and maybe things will look differently to all of us in the morning."

Landa crossed the room and pulled a bell cord that tinkled faintly in the far reaches of the hacienda. Presently Maria appeared in the doorway with a lighted candle in her hand.

"The gentlemen are leaving, Maria," Landa said.

After the three men had left the room Landa and Don sat for a long time without speaking. The distant roar of the pounding surf came in even cadence to fill the room. Finally Landa heard heavy footsteps on the patio floor and looked up to see Mike O'Shanessey coming in the door. The anger was gone from his face. He sat down heavily, facing the two

"I'm sorry if I embarrassed you in front of your friends tonight, Landa," he said. "My temper doesn't seem to improve with age like my Irish whiskey." He laughed briefly at his own humor, and then went on in a smoothly even voice. "It's just that I'm getting old and sentimental about this island of ours. You know this is the land of our fathers. Our children were raised here and our whole life is rooted like the trees to this soil."

The old man stopped and smiled faintly at the two.

"There's so much for you to do here, Landa child," he went on. "Pleasant things I mean, like you used to. Painting the love fields and cooing, going on with your music, being a good wife to my son. Business is nothing for a lovely girl to worry her head about. I'm sure if your father were here he would say the same as I. Let's not discuss this subject again. I'll speak to the buyers first thing in the morning."

Landa didn't speak, but small fires had kindled in her eyes and there was a certain gleam of defiance as her gaze went quickly from Don to his father and she rose to run from the room.

Inter-State League last season, has been sold to the Rochester Red Wings of the International system.

**Teddy Razook, first-class burner at Rheims Shipyard in Providence, R. I., buys a \$50 War Bond every week**

**League for an undisclosed amount of cash.**

President Alvin Butz of the Allentown club said Koval was bought from Rochester a year ago for \$500, and goes back for a considerably larger sum. Both clubs are in the St. Louis Cardinals farm system.

**Teddy Razook, first-class burner at Rheims Shipyard in Providence, R. I., buys a \$50 War Bond every week**

## A \$50 WAR BOND EACH WEEK FROM A \$60 SALARY!

"What Good Would Money Do Me If We Lost the War?" asks Razook

**TEDDY RAZOOK** is helping to build that bridge of ships America needs for Victory. More than that! He is also helping to pay for them. Every week he buys a \$50 War Bond through the Pay-Roll Savings Plan . . . on a salary of \$60!

"I figure it this way," he says, "I'm single and 22 and make \$60 a week. If I put \$37.50 of that into a War Bond, it still leaves me more than 20 bucks to live on. For a single fellow, that's plenty. . . . I know there are some fellows who feel that they have to have more to toss around, but I don't."

"I'm not in the Army," Teddy continues. "And I've been deferred from the draft as an essential war worker. I figure that the Government is giving me a chance to make money now, and that the least I can do is to turn part of it back as a loan to the Government to carry on this war."

Razook went to work in the shipyards after closing up his gas station for lack of business. He still owns the gas station and plans to return to it after the war. In the meanwhile he will continue to buy a \$50 War Bond every week.

"And don't forget, brother—every three bucks I put in is going to get me four! That's why I'm not worried about my future."

Perhaps, like Teddy Razook, you, too, are fighting on the Bond front. But are you making it a good fight? Are you making it the best fight you can? Boost your War Bond buying through the Pay-Roll Savings Plan, right now . . . today!

You've done your bit—now do your best!

## If You Can't Go Over, COME ACROSS

The war is coming home to us. Home to the home front.

What is a "home front", anyway? Well, there is no place like "home"—in the hearts of thousands of boys who are away on a little trip just now.

A little trip to the jungle fastnesses of New Guinea. A little safari to the sands of the desert. Yes, "home" is in their hearts wherever they are, just like a warm, glowing lamp that only blackness can extinguish.

Yes, blackness is coming to some of those boys.

You, on the "home front", where those boys would like to be—

What about that one agency which is doing all it can to bring a little piece of home to those boys; the touch of a cool hand on a burning forehead; medicine for a broken body; courage in the night when there is blackness and fear everywhere?

What about the Red Cross?

In America? In Warren County?

WHAT ABOUT THE RED CROSS, you on the "home front"?

## Brotherhood Of St. Paul's Holds Meeting

An enthusiastic meeting of the brotherhood of St. Paul's Lutheran church was held last evening in the church parlors.

One of the highlights of the meeting was the decision of the Brotherhood to sponsor a Boy Scout troop. Leo L. Gleese of the local Council organization and extension committee gave a brief history of Scouting from its inception in England to its subsequent introduction in the country, and closed his remarks with an explanation of the major aspects of the Boy Scout program and the responsibilities of the sponsoring body associated therewith.

After voting unanimously to sponsor a troop, the Brotherhood recommended the following members to serve as officers: Melbourne Karlson, Scoutmaster; Emmett Ecklund, assistant Scoutmaster; Robert J. Swanson, chairman of the troop committee, and committeemen, Carl Bengtson, Harold A. Nelson and Harold Passinger.

Recordings of a religious nature were presented by Vance Ross, with Arthur Swanson as narrator, provided an interesting and educational part of the program.

The balance of the musical portion of the program included a junior vocal trio consisting of Douglas Johnson, Allen Anderson and Martin Carlson; and a duet by Pastor Edquist and Sam Davis with Mrs. E. J. Jacobson as accompanist were well received.

After closing of the meeting and the benediction by Rev. Edquist, refreshments were served by Sam Davis, Emmett Ecklund, Robert Soderberg and Harold Dietsch.

## Morale Booster
